

Regional Housing Programme on Durable Solutions for Refugees and Displaced Persons (RHP)

Project Financing

WBIF Grant WBEC-REG-SOC-01	€ 225,000
Total	€ 225,000
Total Grants	€ 225,000
Total Loans	€ 0

Project Description

Pre-feasibility Report. The purpose of this Pre-feasibility Report was to assess a number of pivotal elements in the pre-implementation phase of the RHP. The report focused on two main issues: implementation structures and costs per housing solutions.

The COWI-IPF2 consortium also drafted documentation on the RHP, i.e. a Programme Brief Report, a Brochure and a Prospectus. The purpose of these documents was to provide information on the RHP to potential donors prior to the Donors' Conference of April 2012.

The Assembly of Donors for the Regional Housing Programme (RHP) is addressed to four countries: Bosnia and Herzegovina, Croatia, Montenegro, and Serbia. The RHP Fund is a multi-donor fund. The EU, the main donor, contributes around 90% of the funds. The housing solutions include construction of apartment buildings, pre-fabricated houses, provision of materials for reconstruction of existing dwellings/living accommodation, and purchase of houses in rural areas. The implementation of the housing projects started in Q4 2013 with the launch of information campaigns and the selection of the first beneficiaries.
