**Annex III: Communication and Visibility template**

- A - Objectives
- B- Communication Activities
- C- Resources

**A- Objectives**

**1. Overall communication objectives**

**2. Target groups**

- Within the country(s) where the action is implemented;
- Within the EU (as applicable).

**3. Specific objectives for each target group, related to the action's objectives and the phases of the project cycle**

Examples of communication objectives:

- ensure that the beneficiary population is aware of the roles of the Organisation and of the EU in the action;
- raise awareness among the host country population or in Europe of the roles of the Organisation and of the EU in delivering aid in a particular context;
- raise awareness of how the EU and the Organisation work together to support education, health, environment, etc.

**B- Communication Activities**

**4. Main activities that will take place during the period covered by the communication and visibility plan**

Include details of:

- the nature of the activities;
- the responsibilities for delivering the activities.

**5. Communication tools chosen**

Include details of advantages of particular tools (media, advertising, events, etc.) in the local context.

**6. Completion of the communication objectives**

Include measures for the different tools proposed.

**7. Provisions for feedback (when applicable)**

Give details of assessment forms or other means used to get feedback on the **activity from participants**.

**C- Resources**

**8. Human Resources**

- Person/days required to implement the communication activities;
- Members of the management team responsible for communication activities.

**9. Financial resources**

Budget required to implement the communication activities (in absolute figures and as a percentage of the overall budget for the action).

**PROJECT PROGRESS**

**A. Narrative Section** (as the template applies to both TA and INV activities, reporting institutions should adjust the content of their reporting to the nature of the activity. Further guidance is given below when applicable).

<b>1. <u>Project description and Action description:</u></b> (max 300 words)	<i>In line with the description used in the grant application form approved by the SC; any subsequent material change in the project to be described and explained (typically, this section should focus on changes in scope or expected results. Changes in costs or time frame should be addressed in section 5 - Risk Assessment). For a TA activity, focus on tasks to be carried out from grant proceeds. For an INV activity, detail the whole investment Project, the specific implementation phase covered by the Action (if relevant), and highlight any subcomponent to be financed from grant proceeds.</i>
<b>2. <u>Project Context:</u></b> (max 250 words)	<i>Describe the general context of the Project, including the main objectives pursued, compliance with national policies and regional coordination mechanisms priorities, and any related Project including earlier phase(s) and proposed subsequent phases as well as distinct projects that may complement the current Project if applicable; comment on any context change that may have taken place during the reporting period. For a TA activity, this section should cover the underlying investment project being prepared with the TA, including a brief description on the project itself as well as of its context.</i>

**GRANT APPLICATION FORM  
for investment grants (INV GAF)**

<p><b>3. <u>Activities carried out during the reporting period under the Action:</u></b> <i>(max 250 words)</i></p>	<p><i>To include any Action related activity, including tendering, contracting, mobilisation, studies, construction, testing, commissioning, supervision, etc. (if necessary and/or applicable broken down by project component) with if/when possible best estimates of the completion ratio to date and of time overruns, if any. To include also a summary of main proposed activities to be implemented in the forthcoming reporting period.</i></p>
<p><b>4. <u>Actual results:</u></b> <i>(max 250 words plus table if relevant)</i></p>	<p><i>Preferably in the format of the table on expected results in the grant application form and using indicators as they may be defined in the application form, comparing actual or revised expectations with initial expectations and commenting as appropriate.</i></p> <p><i>In case of TA activities for which no indicators are predefined, provide comment on outputs funded by the grant and on outcome (likelihood of the project moving to a next preparation/implementation phase). In principle, reporting obligations cease with completion of works financed by the grant. However, the PFG should be periodically informed on the implementation of the Project and should receive final confirmation that the Project was completed and its objectives were met. Monitoring reports for any follow-on TA or INV activity should clearly establish the link with earlier TA(s).</i></p> <p><i>In case of INV operations, output will be known at project completion, it will take more time to appreciate outcome and impact. While reporting obligations cease with completion of works financed by the grant, IFIs are encouraged to share any evaluation that may be carried out later of the underlying action. Monitoring reports for any follow-on TA or INV activity related to the same Project should also clearly establish the link with earlier INV activities, allowing WBIF to keep track of developments.</i></p>
<p><b>5. <u>Risk assessment:</u></b> <i>(max 250 words)</i></p>	<p><i>Discuss the situation regarding the key risks identified in the grant application form and any mitigation measure that may have been needed during the reporting period. Discuss any new risk that may have emerged since the initial risk assessment. Discuss any major problem with the Project and its implementation that may have arisen during the period and outline proposed remedies. Discuss any development, including institutional aspects, which may affect the sustainability of the Project, post completion and proposed mitigation measures when available.</i></p>
<p><b>6. <u>Visibility and communication activities:</u></b> <i>(max 100 words)</i></p>	<p><i>Report on the communication activities identified in the grant application form, including a description of actions taken so far with an emphasis on initiatives undertaken during the reporting period.</i></p>
<p><b>7. <u>Monitoring activities:</u></b> <i>(max 150 words)</i></p>	<p><i>List any monitoring activity that has taken place during the period, with a brief summary of key findings and conclusions, indicate any monitoring activity already planned for the following period.</i></p>

**GRANT APPLICATION FORM  
for investment grants (INV GAF)**

<b>B. Financial Section</b>	
<b>1. <u>Budget and financing plan of the Action:</u></b>	<i>Provide the latest version and comment on any deviation from initial version or most recent version prior to the reporting period in line with the Project Budget and Financing Plan as per Section 22 of the GAF. In case of costs overruns (effective or anticipated), detail the plan to cover overruns.</i>
<b>2. <u>Costs and disbursements:</u></b>	<i>Provide information on</i> <ul style="list-style-type: none"> <li>• <i>legal commitments entered into during the period;</i></li> <li>• <i>disbursements to contractors under the grant (during the period and cumulative; and</i></li> <li>• <i>implementation costs incurred by the contractors during the period.</i></li> </ul>
<b>3. <u>Controls:</u></b>	<i>Provide a summary of audit and controls carried out during the period, including a summary of errors and weaknesses, if any, with proposed corrective measures. If possible under applicable disclosure policies, provide copy of audit report(s) available.</i>
<b>C. Annexes</b>	
<b>1.</b>	<i>Statements of (sub-) account(s) used for the grant.</i>
<b>2.</b>	<i>Audit report(s), audited annual financial statements and Management Declaration (to be sent to the Commission only).</i>

Note: as the template is intended for use for both technical assistance grant activities and investment grant activities, the reporting entity is encouraged to tailor the information provided under each heading above to the specific Project it is reporting on.

Reporting on other contributions under the Project are for information purposes only:

- for tracking the progress of the Project;
- for identifying the proportion of the (EWBJF grant) Action within the total of the Project.
